

Oxfordshire Parish Register Coverage on CD

Almost all parish and many nonconformist registers in traditional Oxfordshire and North Berkshire have been transcribed from the earliest existing entries to recent times. Transcription started over 30 years ago. These early transcripts were typewritten and indexed using paper slips. In 1994, these early transcripts (many were poor photocopies) were filmed and sold on microfiche. Later, as computer technology came into use, computers were used for new input.

A programme was then started to transfer these older transcripts to CD. The most readable ones were scanned, but a lot had to be re-keyed, rechecked and re-indexed.

The CDs are grouped into Registration District areas so adjacent parishes could be found on the same CD. Each CD also includes copies of the booklet "Oxfordshire Parish Registers and Bishops Transcripts". This booklet gives full details of what registers exist and where they and transcripts can be found.

Each CD costs £17.50 and contains up to 12 complete parishes. CDs are available from the online shop at www.ofhs.org.uk
